Test Definition: BHPV

Human Papillomavirus (HPV) Detection, High-Risk Types

Reporting Title: High Risk HPV DNA Detection
Performing Location: Rochester

Specimen Requirements:

Forms: If not ordering electronically, submit a Microbiology Request Form (Supply T244) with the specimen.

Specimen source is required.

Submit only 1 of the following specimens:

ThinPrep (Non-Pregnant Women Only)
Specimen Type: Cervical
Container/Tube: ThinPrep vial
Specimen Volume: Swab with >8 mL PreservCyt solution
Collection Instructions:
1. Bag ThinPrep specimens individually as they have a tendency to leak during transport.
2. Place labels on the vial and on the bag.

SurePath Test Pack
Specimen Type: Cervical
Container/Tube:
Preferred: SurePath Test Pack (PrepStain/AutoCyte PREP) Cervical Collection Kit
Acceptable: Polypropylene, 6-mL tube (Supply T465)
Specimen Volume: SurePath residual-enriched cell pellet (remaining specimen left after processing) from PrepStain/AutoCyte PREP plus additional SurePath preservative fluid (formerly CytoRich) for a total specimen volume of 2 mL
Collection Instructions:
1. Indicate "SurePath" on vial and batch sheet.
2. Bag SurePath (PrepStain/AutoCyte PREP) specimens individually as they have a tendency to leak during transport.
3. Place labels on the vial and on the bag.
Additional Information: This collection method is not U.S. FDA-approved for human papillomavirus testing (does not require approval from laboratory).

Specimen Type	Temperature	Time
Varies	Ambient (preferred)	
	Refrigerated
