Test Definition: FPOC

Aneuploidy Detection, Products of Conception (POC), FISH

Reporting Title: Aneuploidy Detection, POC, FISH
Performing Location: Rochester

Specimen Requirements:

Provide a reason for referral with each specimen. The laboratory will not reject testing if this information is not provided, but appropriate testing and interpretation may be compromised or delayed.

Specimen Type: Tissue block
Collection Instructions: Submit formalin-fixed, paraffin-embedded tissue block containing fetal or placental (including chorionic villi) tissue.
Additional Information: Do not send the entire fetus.
Forms:
1. New York Clients-Informed consent is required. Please document on the request form or electronic order that a copy is on file. An Informed Consent for Genetic Testing (Supply T576) is available in Special Instructions.
2. If not ordering electronically, submit a Cytogenetics/AFP Congenital Disorders Request Form (Supply T238) with the specimen.

Specimen Type	Temperature	Time
Tissue	Ambient (preferred)	
	Refrigerated
