Test Definition: SDHDD

Succinate Dehydrogenase (SDH) Gene, Deletion Detection

Reporting Title: SDH Deletion Detection
Performing Location: Rochester

Specimen Requirements:

Container/Tube: Lavender top (EDTA)
Specimen Volume: 3 mL
Collection Instructions: Send specimen in original tube.
Additional Information: This test is only applicable if no mutation was found in the SDH gene or a molecular deletion has previously been identified in a family member of this individual.
Forms:
1. SDHB, SDHC, SDHD Gene Testing Patient Information Sheet (Supply T659) in Special Instructions.
2. New York Clients-Informed consent is required. Please document on the request form or electronic order that a copy is on file. An Informed Consent for Genetic Testing (Supply T576) is available in Special Instructions.

Specimen Type	Temperature	Time
