TEST OBSOLETE

NOTIFICATION DATE: December 21, 2012
EFFECTIVE DATE: January 1, 2013

EXPLANATION: On January 1, 2013, the American Medical Association's (AMA) new molecular CPT codes will go into effect for purposes of Medicare reimbursement claims. These CPT code changes will impact many non-orderable additional tests that are added to an orderable test. Effective January 1, these additional tests will be made obsolete.

Additional information about 2013 CPT changes can be found here:
http://www.mayomedicallaboratories.com/test-notifications/molecular-path-2013.html

The table below reflects the Additional tests that will be obsolete on January 1, 2013. On the right side of the table are the orderable tests that these non-orderable tests are added to. ***Note: The order code and result codes for the orderable tests will not change. The only change is that the additional / reflex tests will be eliminated.***

NOTE: These tests are in addition to the tests previously announced on December 3rd.
