

REPORTING CHANGE

NOTIFICATION DATE: November 17, 2010

EFFECTIVE DATE: November 18, 2010

**Antimicrobial Susceptibility Panel, Acid-Fast Bacilli, Rapid Grower
#81601**

EXPLANATION: Due to changes in the manufacturing of the susceptibility plate, Sulfamethoxazole, Vancomycin, and Levofloxacin will no longer be reported for test #81601, Antimicrobial Susceptibility Panel, Acid-Fast Bacilli, Rapid Grower. Susceptibility levels for Trimethoprim/Sulfamethoxazole have now been added to this assay.
