

TEST OBSOLETE

NOTIFICATION DATE: December 17, 2010 **EFFECTIVE DATE:** January 18, 2011

T- AND B-CELL QUANTITATION AND LYMPHOCYTE PROLIFERATION TO ANTIGENS PANEL #89737

EXPLANATION: Effective January 18, 2011, test #89737 will be obsolete. This will remove a major source of radioactivity use in the lab. New test #60589 will provide superior sensitivity and specificity, and provide improved clinical interpretive information.

RECOMMENDED ALTERNATIVE TEST: 60589, T- and B-Cell Quantitation and Lymphocyte Proliferation to Antigens Panel

Note: See #60589 New Test Announcement for details.
