

TEST UPDATE/FILE DEFINITION CHANGE REFERRAL

NOTIFICATION DATE: January 9, 2014 **EFFECTIVE DATE:** February 24, 2014

NOROVIRUS, EIA (STOOL)

Test ID: FNLV Secondary ID: 91366

EXPLANATION OF CHANGE: Test ID FNLV referred to Focus Diagnostics, Inc., will reflect the following update effective February 24, 2014.

CURRENT REPORTING NAME:

Norovirus Antigen

NEW REPORTING NAME:

Norovirus

CURRENT REFERENCE VALUES:

Norovirus Antigen: Negative

A Positive result indicates the presence of Norovirus antigen, but does not differentiate genotype 1 and 2. Other potential gastrointestinal pathogens may still be present. A Negative result does not fully exclude the presence of Norovirus or infection. Results should always be interpreted in combination with the full clinical picture.

NEW REFERENCE VALUES:

Norovirus Antigen: Not Detected

A negative result does not exclude norovirus infection.
