

TEST DOWN NOTIFICATION

NOTIFICATION DATE: February 14, 2014

EFFECTIVE DATE: Immediately

GALACTOSEMIA REFLEX, BLOOD

Test ID: GCT

EXPLANATION: Due to reagent unavailability for the galactose-1-phosphate uridyltransferase (GALT) component, this test will become non-orderable effective immediately. The enzyme is available as an alternate test, referred to ARUP laboratories, see GALT test down notification. The reflex test, Galactosemia Gene Analysis (6-Mutation Panel) remains available as an individual test using test ID GAL6.

NOTE: Once this has been resolved, the test code may be reactivated.
