Oligosaccharide Screen, U				REPORTED 04/10/2013 11:11 Not Applicable	MCR
<p>In this sample, abnormal oligosaccharide bands were present. This pattern is not characteristic of a specific oligosaccharide disorder. If clinically indicated (manifestations consistent with an underlying lysosomal storage disease - coarse facial features, dysostosis multiplex, hepatosplenomegaly, and mental regression), consider ruling out an oligosaccharidosis by enzymatic analysis.</p>					

* Performing Site:

MCR	Mayo Clinic Laboratories - Rochester Main Campus 200 First St SW Rochester, MN 55905	Lab Director: Franklin R. Cockerill, III, M.D.
