

* Bone marrow specimens and frozen tissues will not have flow cytometry (CKP53) testing performed, nor will they be enriched for B cells

** CKP53 flow cytometry testing will be performed if:
 1. Percentage of B cells is not known
 AND/OR
 2. Flow cytometry testing has not been completed at Mayo Clinic within the past 4 days
 AND/OR
 3. Flow cytometry testing has not been completed at client site within the past 7 days
