

**MAYO CLINIC**  
Mayo Medical Laboratories

**TEST DELAY NOTIFICATION**

**NOTIFICATION DATE:** July 24, 2012

**EFFECTIVE DATE:** Immediately

**HIV-1 Antibody Confirmation by Immunofluorescence, Serum**

Test ID: HIVFA

Secondary ID: 81758

**EXPLANATION:** Due to delay in reagent availability, Mayo Medical Laboratories is temporarily unable to perform this assay.

Samples will be stored at Mayo Medical Laboratories until testing resumes.

We anticipate availability of the assay reagent later this week and testing of the stored specimens will resume at MML next week.

Please note that the above test is a possible reflex test when the HIV-1 Ab Confirm Western Blot result is "Indeterminate" or "Unreadable" in the following HIV test profiles.

**HIV-1/-2 Antibody Evaluation, Serum**

Test ID: HIVE

Secondary ID: 9333

**HIV-1/-2 Antibody Confirmatory Evaluation, Serum**

Test ID: WBAR

Secondary ID: 23878

**HIV-1 and HIV-2 Antibody Screen for Hemolyzed Specimens, Serum**

Test ID: HV1CM

Secondary ID: 60357

**HIV-1 and HIV-2 Antibodies for Cadaveric or Hemolyzed Specimens, Serum**

Test ID: HV1CD

Secondary ID: 83628
