

Hematopathology Consultation

Test ID: 5434

Secondary ID: 5434

EXPLANATION: Effective August 19, 2013 test code #5434- Hematopathology Consultation will be made obsolete. It will be replaced by the options below.

RECOMMENDED ALTERNATIVE TESTS:

Test Code 70012- Pathology Consultation

- This test code should be ordered if requesting a Hematopathology consultation on paraffin-embedded tissue and slides only.

Test Code 70016- Hematopathology Consultation, Wet Tissue

- This test should be ordered when submitting any wet-tissue specimen along with a request for a Hematopathology consultation.
- This test should be used when all processing of a formalin-fixed biopsy core is to be performed by Mayo Clinic.
- This test can be used when requesting that a Mayo Hematopathologist provides full bone marrow workup, including appropriate ancillary testing, interpretation and reporting. This could include processing of the formalin-fixed biopsy as above or use of a paraffin embedded bone marrow biopsy block, as long as wet tissue is also submitted.

NOTE: See separate new test announcements for #70012, Pathology Consultation and #70016, Hematopathology Consultation, Wet Tissue.
