<b>Opiates, Confirm/Quantitation, S/P</b>					
Opiates, S/P Interpretation		Negative			Y006
INTERPRETIVE INFORMATION: Opiates, Confirm/Quant, Serum/Plasma					
Methodology: LC-MS/MS					
Drugs covered: codeine, morphine, 6-acetylmorphine, hydrocodone, hydromorphone, oxycodone and oxymorphone. All drugs covered are the non-glucuronidated (free) form.					
Positive cutoff: 2 ng/mL					
For medical purposes only; not valid for forensic use.					
The absence of expected drug(s) and/or drug metabolite(s) may indicate non-compliance, inappropriate timing of specimen collection relative to drug administration, poor drug absorption, or limitations of testing. The concentration value must be greater than or equal to the cutoff to be reported as positive. A very small amount of an unexpected drug analyte in the presence of a large amount of an expected drug analyte may reflect pharmaceutical impurity. Interpretive questions should be directed to the laboratory.					
Test developed and characteristics determined by ARUP Laboratories. See Compliance Statement B: aruplab.com/CS					
Opiates, S/P, 6_AM		<2	ng/mL		Y006
Opiates, S/P, Codeine		<2	ng/mL		Y006
