

Blastomyces Antibody by Immunodiffusion,
Spinal Fluid

Patient ID SA00049792	Patient Name TESTINGRNV, SAMPLEREPORT P	Birth Date 1990-01-01	Gender F	Age 22
Order Number SA00049792	Client Order Number SA00049792	Ordering Physician Client, Client	Report Notes	
Account Information C7028846 DLMP Rochester		Collected 14 Oct 2012 00:00		

Blastomyces Ab Immunodiffusion, CSF

Blastomyces Immunodiffusion (CSF)

Positive

SDL

Reference Value
Negative

Detection of organism-specific antibodies in the CSF may suggest central nervous system infection. However, these results are unable to distinguish between intrathecal antibodies and serum antibodies introduced into the CSF at the time of lumbar puncture or from a breakdown in the blood-brain barrier. The results should be interpreted with other laboratory and clinical data prior to a diagnosis of central nervous system infection.
