<b>Ceramide Trihex/Sulf Accum Ur Sed</b>				REPORTED 02/12/2013 12:01	
Interpretive Comment		In this specimen, there was no evidence of ceramide trihexoside or sulfatide accumulation. In rare instances a normal TLC pattern for ceramide trihexosides may be seen in individuals who are carriers of or affected with Fabry disease. If Fabry disease is clinically suspected, refer to the Fabry Disease Testing Algorithm which can be found on the Mayo Medical Laboratories website for additional testing recommendations.		Not Applicable	MCR
